

CONCLAVE NOW ON

Cardinals Not Expected to Bat-
lot Before Friday.Session Expected To Be Only
Two Days' Duration.

MODEATE POPE IS ASSURED

Neither Peace Nor Irreconcil-
ables Can Elect Candidate.Are Six Names That Stand Out
as Possibilities.(By the Associated Press.)
Rome, Feb. 2.—The convocation of the
sacred college, which is to choose a
successor to Pope Benedict XV began
its sittings today.The fifty-two cardinals who are in
Rome went into seclusion last night
and when the great oak barrier at the
entrance of the courtyard of St. Da-
maso was closed they were cut off
from communication with the outside
world until their secret task was
done.The first ballot will probably not be
taken until Friday morning.The balloting is not expected to con-
sume more than two days and the
next pope in the consensus of opinion
in vatican circles, will come from
among the moderate section of the
sacred college.

Watch for Smoke Puffs.

Neither the "irreconcilables" nor
the "moderates" which favors closer
relations with the Italian government
is understood to have a chance to
elect its candidate. The moderate
holding the balance of power. Cardinals
gathered today in St. Peter's Square
to watch for the tell-tale smoke wreaths
from the chimney of the Sistina
chapel where the conclaves sits.A ballot is taken on the morning
and evening of each day the conclaves
is in session. The smoke puffs
are the only indication to the watch-
ers as to the progress made. When
no election is effected a little straw
is burned with the voting papers
causing the smoke to assume a dark
color. When a choice is finally made
the smoke alone, emit a thin
wisp of light smoke.

Shut Off From World.

Until the election the only com-
munication between the approximately
350 persons in the vatican and the
outside is thru the "rota" or turning
box at the entrance of the courtyard
and such communications are made
in this way. The cardinals are
to the attention of the cardinals. Pen-
alty for violation of this secrecy is ex-
communication.Monsignor Mahoney, spiritual di-
rector of the American college, has
gone to Naples to meet Cardinal
O'Connell, archbishop of Boston, who
is a passenger on the steamship Presi-
dent Wilson, which steamship offi-
cials say is expected to arrive Sat-
urday. As in 1914, when Pope Bene-
dict was elected, Cardinal O'Connell
may arrive too late to participate in
the conclaves.

Be Short Session.

The confidence that the conclaves
would be of short duration is shared
by Cardinal Gasparri, who in making
provisions yesterday for the sustenance
of the cardinals, only provided menus
today, tomorrow and Saturday.
Others, however, believe the election
would be brief pointed out that the
cardinals generally were in favor of a
continuation of the late pontifical
policy, and that there was therefore
nothing to do but choose a man who
would follow that program.As the conclaves convened it ap-
peared that the "irreconcilables,"
headed by Merry del Val, and the
"moderate" group, headed by Gasparri,
each count on about twenty votes, the
remaining twelve constituting the
moderate group. The candidate of
Merry del Val's group was said to be
Cardinal Lefebvre, while any one of
Cardinals Gasparri, Maffi or Ratti was
said to be acceptable to those favoring
the moderate group. Cardinal Gasparri
has influence and will be unable to attend
the conclaves.

Now Made LongerSame Fault in Earth's Crust That
Caused Frisco Disaster Caused
Earth to Shudder Again Tuesday.

(By the Associated Press.)

New York, Feb. 1.—The huge
"fault" in the earth's crust, which
first occurred beneath San Francisco
last year, the memorable catastrophe of
1906, has become a few hundred miles
longer.Dr. Chester A. Leeds, professor of
geology and seismographic observer
at the American museum of natural
history, for the violent tremors of the
earth which yesterday demoralized
seismographs throughout America. "The
earthquake took place at a point be-
neath the bed of the Pacific ocean
about 250 miles west of Portland,
Ore., and was an earth movement, a
slipping along the fault plane known
as the San Andreas rift," said Leeds."In 1906, there was a marked
earthquake caused by shifting along
this plane, along the California coast
from Cape Mendocino to Cape Mendocino,
in a northwesterly course. It was
a further slipping along this fault
which caused the remarkable tremors
of January 31, 1922."

SCRUB WOMAN ROUTS BANDITS

They Fled Leaving \$10,000 When She
Appeared on Job.Chicago, Feb. 2.—A scrub woman
saved \$10,000 belonging to the Argo
State bank today. Her appearance
routed three men who had forced an
entrance to the bank, cut the wires
of the burglar alarm system and were
preparing to dynamite the safe.The bandits fled at the scrub woman's
appearance, taking \$10,000 they had
obtained from a cash drawer.

MURDERED FOR ONLY \$35.
